

PERMANENT MAKEUP FULL LIP AFTERCARE

DAYS 1-2:

- Days 1-2: Immediate Aftercare
- Gently blot the lips with a damp cotton pad every 30-60 minutes to remove lymph fluid.
- Avoid excessive movement and talking for the first few hours' post-procedure.
- Apply a thin layer of the recommended ointment regularly to prevent dryness.
- Avoid for 7-10 Days
- No kissing, makeup, spicy food, or hot drinks.
- Avoid swimming, saunas, steam rooms, and direct sun exposure.
- Do not touch, pick, or peel any scabbing or flaking skin.
- Scabbing and Peeling - Light flaking or peeling may occur from day 2-5.
- Do not interfere with the healing process to prevent pigment loss.

MOISTURISING PROTOCOL:

- Apply the given ointment at least 3-5 times daily or as needed to prevent dryness.
- Use a clean cotton swab for each application.

HEALING TIMELINE DAYS 1-3:

- Lips appear bright, bold, and swollen.

DAYS 4-7:

- Peeling begins; colour softens.

WEEKS 2-6:

- Colour continues to settle into a natural tone.

IMPORTANT NOTES:

- Avoid using any acids or exfoliants on lips for at least 2 weeks.
- Drink through a straw during the first 3 days to avoid direct contact.
- Cold sores may occur if you are prone - take antiviral medication if prescribed.

WEEKS 2-6:

- Colour stabilises. Full healing is expected by week 6.
- Follow-up Appointment Please return for a touch-up session in 4-6 weeks to perfect shape, colour, and retention.
